Gained fundamental programming knowledge using C and Python.

Najot Ta'lim – Result Bootcamp (Fullstack: Node.js & React)

Duration: 8 months

Learned backend development with Node.js (NestJS, Express) and frontend development with React.

Built full-stack projects, followed Git/GitHub workflows, and practiced team collaboration.

EXPERIENCE

TeensIT *Duration: 5 months*

Built a CRM system using Django and Django REST Framework, implementing modules for students, teachers, groups, lessons, attendance, and payments with PostgreSQL. Later migrated the system to NestJS with Prisma, designing scalable REST and GraphQL APIs, adding role-based access control, and expanding features like leads management and a student reward system. Collaborated with the team through GitHub, participated in code reviews, and optimized database design for performance.
